

Correction, Department of Support Division - Support Services

Description:

The Director's Office administers all programs and activities of the department, implements correctional policies and procedures, and oversees public relations, legislative communications, and correctional planning. The Support Division oversees the department's budget and accounting, monitors construction and plans for future construction, has oversight over offender records, and develops and maintains the department's information technology system. HRS assists the management of the various IDOC organizational units in the legal, efficient, and effective administration of human resources.

Program Results and Effect:

The Support Division works to improve the efficiency and effectiveness of the department's operations. The Review and Analysis Bureau develops standard reports, created a population forecasting model and handles both internal and external requests for information.

* The total number of offenders incarcerated in FY 2003 includes all offenders who were recorded as a status of term or retained jurisdiction any time during the year. A recidivist includes any offender who was incarcerated in FY 2003 that was previously a) incarcerated (term or retained jurisdiction) or b) supervised on probation or parole. Recidivists include offenders who were status type retained jurisdiction and were later term. NOTE: This measure is not to be confused with the rate of recidivism, an outcome event.

Definitions:

Term (Status Type)-Felony incarceration, committed to the Department of Correction.

Retained Jurisdiction (Status Type)-Court retains jurisdiction while the offender serves up to a 180 day sentence in the rider program.

+** FY 2004, 2005, 2006 and 2007 cost per day figures are based on a 1.9% increase from the prior year.

Program Results and Effect:

ISCI is the primary facility for long term male, medium custody offenders and male special needs offenders including out-patient mental health, ill and geriatric offenders. The Reception and Diagnostic Unit for male offenders is also located at ISCI. The offender management program concept utilized at ISCI is called team case management, whereby psychologists, social workers, and correctional officers work together as a team to provide a multifaceted program, thus enhancing offender management and potential for their successful reintegration into society. The program emphasis is in those areas where offenders come into conflict with society, e.g., drug/alcohol abuse and criminal behavior -- which is driven by criminal thinking, anger, problem solving, and sex abuse. Institutional focus is on changing that thinking, with offenders accepting responsibility for their past, present, and making responsible decisions in the future. The facility includes a chapel, a recreation center, a school, a large correctional industries operation, and an infirmary. Programs include structured recreation, a three phase outpatient living skills and addictions program, AA, NA, criminal thinking errors, sexuality, a cognitive tier, parenting, a complete education program, correctional industries, structured religious programs, wellness, and anger management. The primary objective of this program is protection of the public.

Program Results and Effect:

NICI utilizes team case management to provide a safe, secure environment through sound correctional practices that provide opportunities for healthy, rehabilitative changes with an emphasis on staff and offender accountability. This diversionary program provides a good stewardship of tax dollars and lessens the burden on the Idaho criminal justice system by successfully diverting approximately 80% of NICI's offender commitments from long-term prison bed space. The ultimate effect of this program is a more (cost) effective method of incarceration for a specific target group of offenders with the potential to become more productive, contributing citizens of our Idaho communities.

Program Results and Effect:

SAWC provides a humane, safe and secure environment through team case management and sound correctional practices. SAWC uses all staff and volunteers to satisfy programming needs of offenders. The ultimate effect of this program is a more cost effective method of incarceration for offenders nearing the end of their sentences with the potential of returning offenders to society who are more capable of living productive lives. The revenues produced by offenders work projects lessen the burden on the Idaho taxpayers and provide offenderd with a limited financial resource needed to ease their transition into society. SAWC provides non-revenue producing community services that directly benefit the citizens of Idaho. SAWC promotes citizen involvement and works to strengthen its relationships with local, state, and federal agencies.

Program Results and Effect:

The Pocatello Women's Correctional Center provides incarceration and program services for Idaho's female offenders through the use of team case management and sound correctional practices. Emphasis of the program is on individual responsibility of the offender as a member of the institutional community as well as a member of the larger community as a whole.

The ultimate effect of this program is the enhanced protection to the community by attempting to return offenders to society who are more capable of living constructive lives.

* Administration includes department central services.

** Programs and treatment services include substance abuse at institutions.

*** Includes offender management fund, recreation, hobby, inmate support, resource center, religion, and volunteers.

+ FY 2004, 2005, 2006 and 2007 cost per day figures are based on a 1.9% increase from the prior year.

Correction, Department of Operations Division - Community Supervisi

Program Results and Effect:

- 1) Community Supervision provides training for managers, probation/parole officers, presentence investigators, correctional officers, and support staff to ensure the philosophy of the division is being communicated, and they are updated on the techniques of supervision and computer technology.
- 2) New programs such as day reporting, cognitive self-change, parenting classes, etc. are implemented each year to meet the needs of the offenders.
- 3) The implementation of intermediate sanctions for technical violators diverts offenders from going to prison, and their anti-social behavior is dealt with in the community, which helps keep the already overcrowded prisons from being flooded with technical violators.

Correction, Department of Operations Division - Offender Programs

Program Results and Effect:

Offender Programs emphasis is to facilitate a continuum of security and program alternatives so offenders committed to the custody of the department are housed in the least restrictive environment in a fiscally responsible manner while enabling them to be best prepared for reintegration into the community.

The Division has standardized information collection and analysis to provide better information faster. Weekly, monthly, and annually key indicators that reflect changes in the institutional environment are reviewed and evaluated. On a quarterly basis department managers, the director, and the Board of Correction are provided with statistical and trend analysis.

Program Results and Effect:

As the offender population grows, the Commission's workload increases commensurately. The Commission has researched and determined how to continue operation with a citizen commission, provide a streamlined system with more complete information, and reduce the Commissioners' preparation time and time in session. The Commission is mandated to consider the public safety as the number one concern in making release decisions; therefore, it is necessary to have complete information when making release decisions, and to coordinate a release plan conducive to success.

Releases of inmates to parole must be organized and timely - inmates not released in this manner add to the already overcrowded prison system.

Parolees who have violated terms of their release have constitutional due process rights and public safety must once again be given priority in concert with these rights.

Victims must be allowed participation at any time the offender is under the Commission's jurisdiction, which is stipulated by statute and the constitution. Victim addresses must be confidentially maintained.

The ultimate effect of the functions of the Commission is to conduct business in the most cost-effective manner, while administering the mandates to provide for public participation and protection.
